## Full Stack Developer

This position is within the Office of the CTO in the Global Operations Center at Hyatt's corporate offices located in downtown Chicago.

### Qualifications

The ideal candidate will possess some or all of the following characteristics:

You are a software craftsman who values quality over quantity, but you are not a zealot or perfectionist.

You like Agile. You like DevOps. Thus you like Continuous Delivery.

You like Clouds, with everything-aaS

You like to build upon platforms composed of loosely coupled, contractually obligated services. Terms like API Façade make you smile.

You love open source and are willing to contribute back to the communities.

You want to help software take over the world, and help provide Authentic Hospitality in the process.

You want mobile apps to be first class citizens in the software world with capabilities equal to or better than webapps.

You like to laugh in the face of adversity.

You are a maker and you are driven by the thought of seeing your creation in the hands of millions of customers.

You like the challenge of simplifying complex systems, and you always consider the big picture even when acting locally.

You are a pleasure to work with and value a great company culture.

### Desired Experience:

2+ years of experience in a full-time development role

B.S. preferred, in Computer Science or related discipline

Software Engineering, Architecture, Technical Operations

Strong Agile experience preferred

Preferred candidate is passionate about travel and the Hospitality industry
