What is the CTA Second Chance Program?

The CTA Second Chance Program is an initiative offered in conjunction with the City of Chicago and social service agencies throughout the city. Working closely with the Department of Family and Support Services, hard-to-place individuals are given an opportunity to obtain full-time employment and training which may enable a start of a long-term, meaningful career.

How to apply

Jobseekers need to actively participate in one of the 13 designated agencies' work readiness programs. The CTA Second Chance program is in regular communication with the agencies listed below. The agencies' top participants are referred to CTA for the bus servicer and rail car servicer Second Chance positions.

[Click Here For the 13 Designated Agencies](#)

What are the eligibility requirements and qualifications?

- Job seekers interested in participating must:
 - Reside within the City of Chicago
 - Be 18 years or older
 - Participate in 8-10 weeks of Job Readiness Training and obtain a certificate of completion from one of the 13 referring agencies.
- Second Chance participants that are referred are required to be released from the following:

How much does the program pay?

Participants are paid at a rate of \$10.00 per hour and may work up to 40 hours per week. Pay checks are issued on a bi-weekly pay period.

How is a participant selected?

As positions become available, CTA contacts the referring agencies. Referring agencies recommend applicants who they have screened and who have successfully completed the job readiness program.

- Applicants are fingerprinted for background processing.
- Applicants complete a medical review.
- If the applicant passes background and medical what are the next steps?

10 Reasons to Consider Joining the Armed Forces

Whether you are considering the military out of a sense of Patriotism or duty, for action and adventure, or for a steady job in a depressed economy, there is something for everyone. Here are 10 reasons the military may be a good fit for you.

1. Patriotism, defending our nation, and a sense of duty. Military service is a time-honored way to serve others first. Walter Reuther is quoted as saying, "There is no greater calling than to serve your fellow men. There is no greater contribution than to help the weak. There is no greater satisfaction than to have done it well." (Source). This quote sums up what it means to serve. When you join the military, you learn the true meaning of service.

2. Jobs in a down economy. The US has experienced a difficult economy over the last few years, including high levels of unemployment, rising costs, and the outsourcing of many jobs. If you are looking for employment, consider the military, which continues to offer jobs for those who are qualified medically and academically, and who do not have an extensive criminal record.

3. Pay and benefits. A new second lieutenant starts at over \$36,000 a year plus full benefits, not including added monthly allowances of up to \$3,000, depending on where he or she is stationed. An enlisted person starts at around \$20,000 a year plus full benefits, not including added monthly allowances of up to \$1,500 depending on where he or she is stationed. Enlistment and re-enlistment bonuses can be over \$20,000. After serving only 3 years, some nuclear trained enlisted members in the Navy receive bonuses of \$90,000 for re-enlisting. Student loans can be relieved by up to \$65,000. The military is also one of the few places where you can get a full pension after serving 20 years or more. Military can reach 50-75% of the average of your final three years base salary. In some instances, you can receive more than 75% of your base pay in retirement.

4. Full medical coverage for you and your family. Military members are immediately eligible for full health care benefits for themselves and their immediate family members as soon as they enter the service, and if you stay through until retirement, you and your family can take these benefits with you when you leave the military. These health benefits extend to immediate family (e.g. spouses and children, and sometimes dependent parents). You may also be eligible for temporary military healthcare benefits after you leave the service.

5. Skills and training. The military provides advanced technical training in a variety of career fields and also offers opportunities for additional training when you are off-duty. Many military members are able to attend college that is often paid for by tuition assistance. You can use your training

opportunities to advance within your career field, earn certifications or degrees, or prepare yourself to transition back into civilian life.

6. Leadership opportunities. Military leadership is a great way to get your resume for your next career. If you were to hire someone, would you want to hire someone with proven skills and experience and a degree, or someone right out of high school/college? Give me the experienced professional any day of the week! (More tips for creating your post-military resume).

7. Travel opportunities and vacation time. The military has installations all around the world and pays for you and your family to get there and back. Your off duty time is yours and you are free to travel and see the world. The military gives you 30 days of paid leave per year, not including weekends and federal holidays, depending on your job.

Benefits after Leaving the Service

8. Education opportunities after you leave the military. The new GI Bill pays veterans who served at least 36 months a monthly living stipend and full tuition to pay for college, after they leave the military. Depending on how long the service member commits, this GI Bill can be transferred to spouses and children.

9. Buy a home with no money down with a VA Loan. The Veterans Affairs office offers veterans a way to purchase a home with no money down through the VA Loan. This makes it easier to purchase a home while you are serving, or after you have left the service.

10. A military retirement is worth millions. An officer with 20 years of service, who earns over \$100,000 per year, could retire with a pension of over \$48,000 per year for life in his or her 40's and start a second career. Imagine earning over \$4000 per month for the rest of one's life, starting

at age 42. This equates to an accumulative pay of \$480,000, \$960,000, \$1.4 million in 10, 20, and 30 years, respectively, in addition to having full health care coverage and an income from a second job, if desired. (Oh, and those numbers don't account for annual cost of living adjustments which increase your monthly pension).
